

Expanded Equipment and Livestock

Many items that could commonly be purchased in the medieval world are not listed in the Rulebook. This list should help GM's enhance their worlds, by giving them a general guideline from which to base prices. The prices listed for the items below are based on the Silver Penny prices listed in 85.4 of the DragonQuest Rulebook. Remember that this list assumes that characters are mid-level, earning a yearly income averaging out to about 40,000 silver pennies per year. Additionally, prices for some items may vary greatly, depending on season, geographical location, etc. Prices for most items can be higher in cities, where the wealth of most kingdoms is located, and lower in the towns and farm communities. Hired soldiers were often paid a portion of treasure from adventure or conquering, in addition to their pay. GM's should feel free to adjust the prices to fit the needs of their players and worlds.
